# Specifications of the CS100 IoT gateway

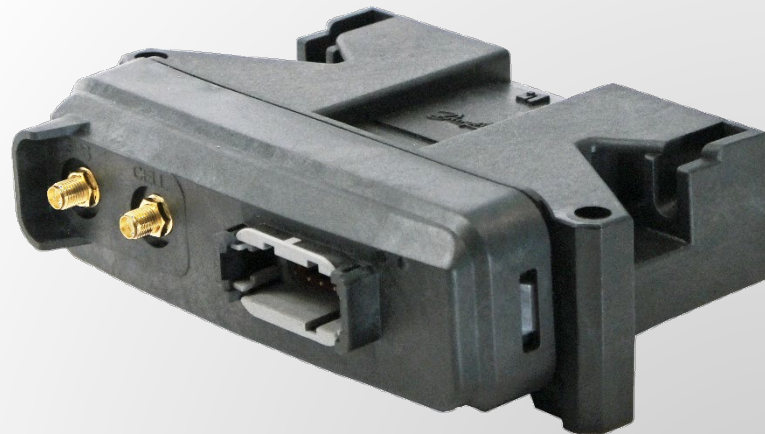

Connectivity	5G (LTE-M) 2G
Configurable / programmable	Configurable via PLUS+1® Connect portal
Operating system type	Embedded OS
Storage	16 MBytes
Operator ID	none
I/O	2 digital/analog in & outputs
Battery	None
Wakeup functions	Engine keyswitch internal timer

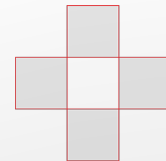

# Specifications of the CS500 IoT gateway

Connectivity	4G 3G 2G
Configurable / programmable	GUIDE programmable, Configurable via PLUS+1® Connect portal
Operating system type	Embedded OS
Storage	256 MBytes
Operator ID	none
I/O	2 digital or analog inputs 2 digital inputs 2 digital/analog in & outputs
Battery	none
Wakeup functions	Engine keyswitch Internal timer

# Specifications of the CS10 IoT gateway

Connectivity	Wi-Fi Bluetooth classic Bluetooth low energy 4.2
Configurable / programmable	GUIDE programmable, configurable via mobile service tool
Operating system type	Linux
Storage	256 MBytes
Operator ID	none
I/O	1 digital input
Battery	none
Wakeup functions	Engine keyswitch
